

Newman Catholic Collegiate Physical Education Mission Statement.

The Newman Catholic Collegiate recognises that gospel values and the teachings of the church are central to the life of all the School's within our Catholic community. The Collegiate aims to create an environment where children can develop physically, emotionally, socially and morally fostering co-operation between home, School, parish and the communities it serves. Together we hope to lead our children towards understanding, tolerance, justice and sensitivity to the needs of others.

The Collegiate recognises Physical Education as an excellent vehicle to promote ambition, discipline and fairness within our Catholic community. The Collegiate's Sporting initiative is designed to engage and challenge the children within the Collegiate for the sustainable future, utilising the expertise of the Staff within the Collegiate to improve the physical, mental, spiritual and social development of our children.

As a Collegiate we aim to raise the provision for Physical Education within our School community. The aims of the National Curriculum for Physical Education shape the strategies implemented by the Collegiate as we aim to provide engaging, strenuous activity for our children. As a Collegiate we value extending the learning of our pupils by providing a diverse extra-curricular programme, leading to regular competitive opportunities both intra-School and inter-School.

The Newman Catholic Collegiate recognises Physical Education as an integral factor of a child's education. As a Catholic Community we are committed to working collaboratively to ensure all children within the Collegiate benefit from a exciting, challenging and structured Physical Education programme.

Mr. C Sigley

Newman Catholic Collegiate Physical Education Specialist
