# Who are National Online Safety

## Introduction:

National Online Safety (or NOS) is the world's most comprehensive provider of online safeguarding resources. No-one does online safety quite like us: at NOS, our goal is to empower schools and parents by providing them with the information they need to get students talking about staying safe in the digital world.

## How We Started:

The organisation started life back in 2017 when our Co-Founder James, a father of two, couldn't find anything suitable to educate his two boys on online safety that would capture their attention just like their favourite storybooks do. James wrote 'Oscar's Adventures in the Online World', a storybook that empowers parents to help their children to make informed decisions on the internet whilst engaging them in an adventurous story. The book became popular with schools across the UK and there were numerous requests for training and resources to support the book, which ultimately led to the official formation of National Online Safety in 2017.

## Our Mission:

It is our mission to empower teachers, school staff, parents and carers with the knowledge they need to keep children safe online.

## Our Vision:

We aim to be at the forefront of educational awareness of internet safety in the UK. We make learning fun, interactive, challenging and memorable.

## Our Values:

### PASSION

We use our drive to inform, engage and inspire others. We are passionate about keeping children safe online and believe in a 360 degree approach to online safety, raising awareness at all levels.

### FOCUS

We are driven to develop the greatest online safety products and services. We focus on our own products, not our competitors. We focus on the ultimate goal - to keep children safe online.

### COURAGE

We believe in breaking boundaries with new, engaging learning materials - staying ahead of the game. We have the courage to deliver a new approach to online safety training and resources.

# Who are National Online Safety

## What We Do:

National Online Safety provide CPD accredited courses and educational resources delivered through a whole school community approach comprising of:

-  **Designated safeguarding lead training**
-  **Staff training**
-  **Parent training**
-  **Classroom resources**
-  **Webinars on specific topics of interest**

All of our training is delivered online through our learning hub so schools can easily share training, track completion and download certificates.

We encourage schools to adopt a whole school community approach and reward them through our certified school status. The status is only achieved once a school demonstrates that a % of their parents, staff and pupils have completed the training.

We strongly believe that awareness combined with education, through a joint approach between schools and the wider community, is the best school-led approach to online safety.

## Your Schools Online Safety Training in One Place:

With over 200 unique guides and 100 explainer videos, the risk centre can help you respond more efficiently to online safeguarding issues than any other service out there. Each guide offers a clear and informed explanation of the topic at hand, including what the risk is, signs to look out for, and what trusted adults can do to tackle it.

## Management Tools for DSLs & IT Leads

### Tracking

Schools who have a School Membership have the ability track CPD across the whole school. There are two simple dashboards. The first allows you to track the roll-out of the membership across your workforce, ensuring everyone has logged in and completed their first CPD. The second gives you access on reports across any of our CPD to see who has started and who has completed it. You can also download certificates for any user in the system.

### CPD Report

The CPD Report area is where you can monitor your CPD progress or view all completed CPD. Here you can see the webinars you haven't yet finished as well as being able to download both individual webinar certificates or all previous certificates from those webinars already completed.

### Training Certificates

Easily access all your CPD certificates in one place. With fully downloadable certificates at your fingertips, our eLearning hub makes it easier than ever to manage user progress.

# THE WORLD'S MOST COMPREHENSIVE ONLINE RISK CENTRE

Our award-winning online safety resources are all available in one handy place – the Online Risk Centre. This platform gives you unrivalled access to hundreds of guides, all of which have been designed to help parents, carers and trusted adults get to grips with a wide array of online risks: including those directly related to leading apps, games and technology.

## Online Identity & Self-Image

Online identity is a hot topic, especially for teenagers and pre-teens. These guides explore pressing topics including building a digital personality, how images can be manipulated and what an online reputation is.

## Online Information

Misinformation is everywhere. These guides will help trusted adults increase their understanding of how online information can be found and verified, and how it can influence and shape how children think and act offline.

## Copyright & Ownership

A complex and often dense topic, these guides explain digital rights and issues of content ownership in a way that is easy to digest.

## Online Relationships

Online relationships are becoming increasingly normalised. These guides explore how technology shapes communication styles, and what risks to watch out for when children communicate with others in the online world.

## Mental Health & Wellbeing

How can social media impact mental health? We answer this question and offer guidance on how to alleviate some of the pressures faced by young people in the digital world.

## Gaming & Gambling

From gambling to graphic violence, microtransactions to MMORPGs, this category covers the core topics relating to gaming – both online and offline.

## Cyberbullying & Trolling

These guides explore how children may face different types of aggression and negativity in the online world. It explains how to spot the signs of cyberbullying and, most importantly, how to tackle it.

## Privacy & Security

Online privacy may seem like a complex subject, but it doesn't have to be. In this topic, trusted adults can learn how personal online information can be used, stored, processed and shared and how far others will go to access private information.

## Social Media & Live Streaming

It may seem like there is a new social media platform every week, understanding how platforms affect young people is crucial. Our guides provide trusted adults with an understanding of how social media works, how children engage with social media and why it is so popular with billions around the world.

## Online Platforms

Our online platform guides tell you everything you need to know about the latest apps popular with young people. They cover everything from Facebook and TikTok to Instagram and YouTube.

## Online Gaming

From Fortnite and Call of Duty to Minecraft and GTA, we've included the most popular titles in the gaming sector.

## Technology & Devices

Our guides cover everything from the Playstation and Nintendo Switch to experiencing virtual reality through the Oculus Quest.

# Understand Your School's Statutory Online Safety Duties 2020/21

# The Certified School Membership

## What is the Membership?

National  
Online  
Safety®

Our Certified Schools Membership responds to current DfE statutory guidance around online safety, including the new 'Keeping Children Safe in Education (KCSiE)', which came into effect on 1st September 2020. The membership includes award-winning online safety e-learning, resources and updates for the whole school community, including Designated Safeguarding Leads, SENDCos, all school staff and governors, pupils and parents/carers.

## Why schools love the Certified School Membership:

- ✓ CPD-accredited online safety training for the whole school, including parents and carers.
- ✓ Full and unlimited access to our award-winning online safety guides and our new and improved online risk centre
- ✓ Fast, digital rollout of training to the whole school community including pupils, parents, teachers, governors and designated safeguarding leads.
- ✓ Monthly updates in online safety news, social media, gaming and safeguarding children online
- ✓ Rich, diverse and immersive lesson resources produced by teachers, for teachers
- ✓ The ability to manage your whole school CPD from a dedicated learning management hub and evidence CPD line with statutory requirements
- ✓ Unlimited number of licences giving you exceptional value for the entire school

### ✓ Keeping Children Safe in Education (KCSiE) 2020

# Annual Level 1 Certificate in Online Safety for Non-Teaching Staff

National  
Online  
Safety®

NEW

## About The Course:

Safeguarding and online safety is everybody's responsibility. The most effective approach is by engaging the whole school community, including non-teaching staff, who should be aware and be able to recognise any difficulties relating to online safety.

Our Level 1 Certificate in Online Safety provides non-teaching staff with the core content they need to feel confident and empowered to tackle online safety issues head on. Delivered in high-quality video CPD format that has been skilfully organised for busy workloads and is accessible on any device, anytime, anywhere, our online safety training has been designed to provide maximum learning potential in the leanest, most cost effective and most time-efficient manner.

Delivered by subject matter expert, Lorna Ponambalum, the course has been divided into five easy-to-digest modules and contains links to further learning and resources throughout, with a knowledge assessment at the end to help you evidence your compliance in IT online safety.

## Designed in line with the following policies:

- ✓ Keeping Children Safe in Education 2020
- ✓ Teaching Online Safety in Schools 2019
- ✓ Relationships Education, Relationships and Sex Education (RSE) and Health Education 2019

## Learning Outcomes:

- ✓ Understanding safeguarding legislation and statutory guidance around online safety.
- ✓ Recognising what online safety means and the topics that non-teaching staff and children should have an awareness of.
- ✓ Identifying what children are accessing online and the range of risks associated with different platforms, websites, apps and games.
- ✓ Understanding what online risks are and developing the knowledge and confidence to have age appropriate conversations with children at school.
- ✓ Recognising how you can help to keep children safe online, providing them with support when needed and where to access additional help when required.

## Course Overview:

<b>Module 1: Introduction and statutory requirements</b>	In module 1, you will be provided with a definition of online safety and what it means for schools. You will also be provided with a brief overview of the latest DfE statutory guidance relevant to safeguarding children online.
<b>Module 2: Educating children around online safety</b>	Module 2 will explore what online safety is in more depth and what children are being taught about the online world. It will provide learners with a basic understanding of classroom practice and the different age-appropriate topics that children should be educated on.
<b>Module 3: What children are doing online and the latest trends</b>	In module 3, you will learn about what children are accessing online. You will explore some of the most popular websites, social media apps and online games that children often engage with, why they are so popular and what makes them so appealing.
<b>Module 4: Introduction to online risks</b>	Module 4 will provide an introduction into the different risks and harms that children may encounter online, both from adult offenders and from other children. It will discuss how children can inadvertently put themselves at risk and the ways in which they request help when required.
<b>Module 5: How to keep children safe online</b>	In module 5 you will be provided with advice and guidance to help keep children safe online whilst at home and accumulate the knowledge and skills to be able to confidently discuss online safety with children when required. You will also learn where to seek further help and advice when additional support is required.

# The Certified School Membership

# Annual Level 2 Certificate in Online Safety for School Governors

National  
Online  
Safety®

NEW

## About The Course:

Governing bodies and proprietors must ensure that policies, procedures and training in their schools or colleges are effective and comply with the law at all times. They should be doing all that they reasonably can to limit children's exposure to online harms and risks, ensuring appropriate filters and monitoring systems are in place, and consider a whole school or college approach to online safety. (Keeping Children Safe in Education (KCSiE) statutory guidance 2020)

Our Level 2 Certificate in Online Safety provides school governors with the core content they need to ensure adherence with their online safety statutory requirements. Delivered in high-quality video CPD format that has been skilfully organised for busy workloads and is accessible on any device, anytime, anywhere, our online safety training has been designed to provide maximum learning potential in the leanest, most cost effective and most time-efficient manner.

Delivered by subject matter expert, Lorna Ponambalum, the course has been divided into six easy-to-digest modules and contains links to further learning and resources throughout, with a knowledge assessment at the end to help you evidence your compliance in L2 online safety.

## Designed in line with the following policies:

- ✓ Keeping Children Safe in Education 2020
- ✓ Teaching Online Safety in Schools 2019
- ✓ Relationships Education, Relationships and Sex Education (RSE) and Health Education 2019

## Learning Outcomes:

- ✓ Understanding the key safeguarding legislation and statutory guidance around online safety.
- ✓ Understanding the roles and responsibilities of a school governor in relation to online safety and key safeguarding legislation and statutory guidance.
- ✓ Identifying how staff should be supporting children around online safety, spotting the signs and responding in a timely and effective manner.
- ✓ Understanding how to implement a whole school approach and developing a culture of online safety to embed policy and process.
- ✓ Recognising staff responsibilities around safer use of technology, keeping up to date with online risks and seeking further advice and support where necessary.

## Course Overview:

<b>Module 1: Introduction and statutory requirements</b>	In module 1, you will understand what your statutory requirements are around online safety in line with key DfE guidance. You will understand why online safety is so important in schools and what your duty of care is to ensure children are protected from online harm.
<b>Module 2: Understanding online safety and the online risks to children</b>	Module 2 will explore what online safety is in more depth and how children at all ages can be exposed to a range of different online harms and risks, from primary school through to their teenage years.
<b>Module 3: Supporting children and young people</b>	In module 3 you will explore how you can support children in different aspects of online safety. It will discuss how to implement online safety into curriculum planning as well as how staff can spot signs of potential harm and how to respond and escalate concerns quickly and effectively.
<b>Module 4: Roles and responsibilities of governors and government expectations</b>	In module 4 you will explore the role of school governors in implementing effective online safety practice in schools and DfE and Ofsted expectations towards ensuring governors provide the necessary support, training and direction around safeguarding children online.
<b>Module 5: Staff use of digital technologies</b>	In module 5 you will learn what staff responsibilities are around safe and effective use of technology and how staff can use the online and digital world to enhance their teaching and learning.
<b>Module 6: Developing a safe online culture</b>	Module 6 will discuss how staff can contribute towards a whole school approach to online safety. It will explore reporting mechanisms, referrals, promoting good practice and benefits of teaching online safety to ensure your school's online safety provision is more holistic.

## About The Course:

Designated Safeguarding Leads should take lead responsibility for safeguarding and child protection, including online safety, in schools. They should undergo training to provide them with the knowledge and skills required to carry out the role, including the ability to understand the unique risks associated with online safety. They should be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college (Keeping Children Safe in Education (KCSiE) statutory guidance 2020).

Our Level 3 Certificate in Online Safety course provides you with the core content you need to ensure adherence with your online safety statutory requirements. Delivered in high-quality video CPD format that has been skilfully organised for busy workloads and is accessible on any device, anytime, anywhere, our online safety training has been designed to provide maximum learning potential in the leanest, most cost effective and most time-efficient manner.

Delivered by subject matter expert, Lorna Ponambalum, the course has been divided into eight easily digestible modules and contains links to further learning and resources throughout, with a knowledge assessment at the end to help you evidence your compliance in L3 online safety.

## Designed in line with the following policies:

- ✔ Keeping Children Safe in Education 2019
- ✔ Relationships Education, Relationships and Sex Education (RSE) and Health Education 2019
- ✔ Teaching Online Safety in Schools 2019
- ✔ Ofsted Education Inspection Framework 2019
- ✔ Ofsted School Inspection Handbook 2019
- ✔ Inspecting safeguarding in early years, education and skills settings 2019

## Learning Outcomes:

- ✔ Understanding the roles and responsibilities of a designated safeguarding lead in relation to online safety and key safeguarding legislation and statutory guidance.
- ✔ Recognising the need for developing robust and rigorous online safety policies to help mitigate risk and ensuring engagement and compliance.
- ✔ Identifying and responding to different types of harm and abuse at a more senior level, managing disclosures and the role of contextual safeguarding.
- ✔ Implementing a whole school approach and developing a culture of online safety.
- ✔ Recognising your responsibilities around safeguarding remote learners, adapting policy and promoting effective online safety practice.

## Course Overview:

<b>Module 1: Your responsibilities as a DSL and Deputy DSL in relation to online safety</b>	Module 1 will discuss what you must be aware of and understand in your role as the designated safeguarding lead or deputy safeguarding lead. It will define your role and expectations as a DSL and your responsibilities in relation to safeguarding children online.
<b>Module 2: Statutory guidance, Ofsted and the legislative framework in relation to online safety</b>	Module 2 will explore the statutory guidance that DSLs must be aware of around online safety in schools. It will look at the key policy documents, including Keeping Children Safe in Education (KCSiE) 2020, as well as curriculum requirements and guidance in relation to Ofsted.
<b>Module 3: School policies including the Online Safety Policy and the Acceptable Use policy</b>	In module 3 you will learn about the need to develop and implement different policies which will support your school's online safety provision. It will discuss the need to ensure policies are inclusive, transparent, relevant and reflective of the current environment.
<b>Module 4: Roles and responsibilities of Governors and government expectations</b>	In module 4 you will explore the role of school governors in implementing effective online safety practice in schools and DfE and Ofsted expectations towards ensuring governors provide the necessary support, training and direction around safeguarding children online.
<b>Module 5: Understanding the online risks to children</b>	Module 5 will explore different risk factors in depth. You will learn about different types of content, unsafe communication, conduct online and the effects of online harms and risks on children's wellbeing, mental health and lifestyle.
<b>Module 6: Developing a safe online culture</b>	Module 6 will discuss your role in developing a whole school approach to online safety in schools. It will explore reporting mechanisms, referrals, compliance promoting good practice, teaching online safety and providing the necessary support to children.
<b>Module 7 Safeguarding remote learners</b>	In module 7 you will cover what your responsibilities are in relation to safeguarding remote learners in line with DfE requirements and ensuring they continue to remain safe online through blended learning and in respect adapted teaching and learning due to COVID-19.
<b>Module 8 Staff use of digital technologies</b>	Module 8 will explore your role in ensuring effective staff use of digital technologies, particularly in supporting enhanced teaching and learning and in complying with relevant safeguarding requirements.

## Annual Level 3 Certificate in Online Safety for ICT Leads

National Online Safety®

NEW

### About The Course:

ICT Leads play a vital role in developing and enhancing children's learning around online safety. They are central to progressing policy and process and in helping to shape how young people acquire the skills to use ICT effectively, confidently and safely. Furthermore, ICT Leads should work closely with DSLs and have an awareness of their wider safeguarding responsibilities.

Our Level 3 Certificate in Online Safety for ICT Leads provides you with the core content you need to ensure adherence with your online safety statutory requirements. Delivered in high-quality video CPD format that has been skilfully organised for busy workloads and is accessible on any device, anytime, anywhere, our online safety training has been designed to provide maximum learning potential in the leanest, most cost effective and most time-efficient manner.

Delivered by subject matter expert, Lorna Ponambalum, the course has been divided into seven easily digestible modules and contains links to further learning and resources throughout, with a knowledge assessment at the end to help you evidence your compliance in L3 online safety.

### Designed in line with the following policies:

- ✓ Keeping Children Safe in Education 2020
- ✓ Teaching Online Safety in Schools 2019
- ✓ Relationships Education, Relationships and Sex Education (RSE) and Health Education 2019

### Learning Outcomes:

- ✓ Understanding the roles and responsibilities of an ICT Lead in relation to online safety and key safeguarding legislation and statutory guidance.
- ✓ Recognising the need for developing robust and rigorous online safety policies to help mitigate risk and ensuring engagement and compliance.
- ✓ Identifying and responding to different types of harm and abuse at a more senior level, managing disclosures and the role of contextual safeguarding.
- ✓ Implementing a whole school approach and developing a culture of online safety.
- ✓ Recognising your responsibilities around safeguarding remote learners, adapting policy and promoting effective online safety practice.

## Annual Level 3 Certificate in Online Safety for Special Educational Needs and Disabilities Coordinators (SENDCoS)

NEW

### About The Course:

Children with special educational needs (SEN) and disabilities can face additional safeguarding challenges online. They often experience more online harms than their peers and can be vulnerable to online risks such as cyberbullying, online grooming and exploitation. SENDCoS play a central role in safeguarding pupils with SEND. They are a core element of ensuring relevant policies are adhered to, co-ordinating SEND provision and providing the necessary support that SEND and vulnerable learners need.

Our Level 3 Certificate in Online Safety for Special Educational Needs and Disabilities Coordinators (SENDCoS) provides you with the core content you need to ensure adherence with your online safety statutory requirements. Delivered in high-quality video CPD format that has been skilfully organised for busy workloads and is accessible on any device, anytime, anywhere, our online safety training has been designed to provide maximum learning potential in the leanest, most cost effective and most time-efficient manner.

Delivered by subject matter expert, Lorna Ponambalum, the course has been divided into seven easily digestible modules and contains links to further learning and resources throughout, with a knowledge assessment at the end to help you evidence your compliance in L3 online safety.

### Designed in line with the following policies:

- ✓ Keeping Children Safe in Education 2020
- ✓ Teaching Online Safety in Schools 2019
- ✓ Relationships Education, Relationships and Sex Education (RSE) and Health Education 2019

### Learning Outcomes:

- ✓ Understanding the roles and responsibilities of a SENDCo in relation to online safety and key safeguarding legislation and statutory guidance.
- ✓ Recognising the need for developing robust and rigorous online safety policies to help mitigate risk and ensuring engagement and compliance.
- ✓ Identifying and responding to different types of harm and abuse at a more senior level, managing disclosures and the role of contextual safeguarding.
- ✓ Implementing a whole school approach and developing a culture of online safety.
- ✓ Recognising your responsibilities around safeguarding remote learners, adapting policy and promoting effective online safety practice.

### Course Overview:

<b>Module 1: Your responsibilities as a SENDCO in relation to online safety</b>	Module 1 will discuss what you must be aware of and understand in your role as a special educational needs and disabilities coordinator. It will define your role and expectations as a SENDCO and your responsibilities in relation to safeguarding children online.
<b>Module 2: Statutory guidance and the legislative framework in relation to online safety</b>	Module 2 will explore the statutory guidance that SENDCoS must be aware of around online safety in schools. It will look at the key policy documents, including Keeping Children Safe in Education (KCSIE) 2020, as well as curriculum requirements and guidance from the UKCIS.

# EYFS–KS4 Lesson Resources

Updated in-line with the new UKCIS 'Education for a Connected World' Framework – 2020 Edition

## Resources for Schools:

Our classroom activities are designed to make your online safety lessons fun and engaging for your pupils. We understand that every school, every teacher and every pupil is different, so we've made it really easy for you to pick and choose activities to fit into your timetable.

Each activity lists the suggested time and the type of activity. Some lessons even have shorter options if you are short on time! For our early years learners, we believe conversation is key, therefore the activities encourage discussion in order to best understand the topic.

## What's Included:

- ✓ Self Image & Identity
- ✓ Online Relationships
- ✓ Online Reputation
- ✓ Online Bullying
- ✓ Managing Online Information
- ✓ Health
- ✓ Wellbeing & Lifestyle
- ✓ Privacy & Security
- ✓ Copyright & Ownership

### Online Safety Storybook

DESIGNED FOR KS1&2

Oscar's Adventures in the Online World is an interactive storybook that teaches children the necessary steps to keep themselves safe online, covering topics such as online scams, online payments, online bullying and pop-ups. It can be used as a story book at home or as a resource in the classroom.

LEARN MORE

### EYFS Lesson Resources

ACTIVITY PACK

Early Years settings are increasingly using devices in their teaching approach. Our EYFS classroom resources are designed to introduce the concept of online safety, helping young children to understand what online dangers can look like and the steps they can take to prevent them.

LEARN MORE

### KS1 & KS2 Lesson Resources

ACTIVITY PACK

Using the star of our online safety storybook, our KS1 and KS2 Two classroom activities are designed to make your online safety lessons fun and engaging for yourself and your pupils. All of our activities are adaptable, making it easy to pick and choose tasks to fit into your timetable.

LEARN MORE

### KS3 & KS4 Lesson Resources

ACTIVITY PACK

Our combined lesson resources for KS3 and KS4 are designed to cover the more complex dangers that exist online and how an individual's actions can affect their online reputation. All of our activities are adaptable, making it easy to pick and choose tasks to fit into your timetable.

LEARN MORE

### Platform Guides

RESOURCES FOR TRUSTED ADULTS

Each week, as part of our #WakeUpWednesday campaign, we provide free resources for the whole school community about online dangers, including informative guides about social media apps, online games and trending issues. Follow us on social media to be updated with our new guides every Wednesday.

# The Certified School Membership Monthly Webinars on Trending Topics

## National Online Safety Webinars: What's Included:

We release monthly webinars to aid organisations in their efforts to keep updated with trending topics in education. We call upon specific areas of external expertise when developing our webinars.

Your organisation will have access to the latest webinar series each month. There's nothing to download, and you're able to access the training at your convenience on your phone, laptop or tablet.

- ✓ **Our webinars are accessible through computers, laptops, tablets and mobile devices so you can watch them on the go.**
- ✓ **If you are not available to attend on the dates we provide, we will send you a recording of the webinar to view at your convenience.**

## Key Benefits:

### Developed by Experts

All our webinars have been developed by industry-leading experts to ensure we're at the forefront of education.

### Support Available

Following your webinar, you're able to send any questions you may have to our presenters for a tailored answer.

### Pay via Invoice

Payment via Invoice is available at the checkout, you'll receive your invoice within 7 days of your purchase.

### Instant Access

Upon checkout, you'll receive an email with details on how to access your webinar.

## What's Included:

The all new range of

# Essential CPD

Our Essential CPD courses provide a cost-effective solution for schools to roll-out statutory training to the entire school workforce. CPD certified, all of the courses offer the opportunity for focused learning around permitted and required topics in schools across the United Kingdom.

## Statutory Training for All School Staff

Our Essential CPD courses provide a cost-effective solution for schools to roll-out statutory training to the entire school workforce.

We provide a comprehensive suite of bespoke courses designed in line with the latest statutory guidance for senior leaders, school staff and specialist roles, both in schools and the workplace, to help you meet your mandatory training needs.

**Our courses are aligned to government guidance and legislative frameworks, including:**

- ✓ Keeping Children Safe in Education 2019, DfE
- ✓ Staffing and employment advice for schools, DfE
- ✓ The designated teacher for looked after and previously looked-after children, DfE
- ✓ Health and safety: advice for schools, DfE
- ✓ The Management of Health and Safety at Work Regulations
- ✓ First aid in schools, DfE
- ✓ Data Protection: toolkit for schools, DfE
- ✓ Protecting children from radicalisation: the prevent duty, DfE
- ✓ School and college security, DfE
- ✓ Working safely with display screen equipment, HSE
- ✓ Knife crime: safeguarding children and young people in education, DfE
- ✓ Fire safety risk assessment: educational premises, Home Office
- ✓ Health and Safety at Work etc Act 1974 (HASAWA)
- ✓ SEND code of practice: 0 to 25 years, DfE
- ✓ Mental health and behaviour in schools, DfE

### Statutory Training

Our courses have been designed in line with statutory guidance for schools, government policy and workplace legislative frameworks.

### Video Streaming

Delivered in high-quality video format, each course has been skilfully organised for busy workloads.

### Lean & Time Efficient

Designed to provide maximum learning potential in the leanest, most cost effective and most time-efficient manner.

### Expert Delivery

Delivered by subject matter experts who have picked out the key aspects of each topic and reshaped them into small, easy digestible modules.

### Evidence Learning

Evidence learning through assessments and record all your CPD, externally and internally, in one place with our brand new logging facility in our online hub.

### Accessible

Accessible on any device, anytime, anywhere.
