

# Art & Design - KS2

At Our Lady & St Benedict's we believe that by providing an 'Arts Rich Curriculum' we can contribute to the quality of our children's lives, both within and beyond school. We understand that the purpose of Art and Design education is to give pupils the skills, concepts and knowledge necessary for them to express their responses to ideas and experiences in a visual or tactile form. Pupils should be taught to develop their techniques with creativity, experimentation and an increasing awareness of different kinds of art, craft and design. They should be encouraged to record their observations and use them to review and revisit ideas in sketchbooks. Pupils should be encouraged to improve their mastery of art and design techniques with opportunities to use a range of materials. Pupils will study a range of great artists, architects and designers in history.
